

PURE CONTROL PANEL

Set and monitor your sauna or steam room with the Pure thermostat control panel. The thin black control lights up and lets you set the lighting, temperature and sauna time easily with only a few touches. May be placed inside or outside the space. Pure is compatible with Expression and Sense Commercial heaters, and Steam Home steam generator. It is included with heaters Sense Pure and Sense Combi Pure.

Pure control panel

The compact dimensions, along with its sleek and modern look, makes it a perfect option for new and modern situations. It also adds modern technology and efficiency when upgrading an existing sauna or steam room.
