KITS: CLEAR VS. KNOTTY VS. HEMLOCK

KITS: CLEAR VS. KNOTTY VS. HEMLOCK

CLEAR CEDAR

Plus or Premium or Floating

LK Plus:

"The original" was the first style of sauna kit we began with over 50 years ago. Still the big seller, but the increasingly popular Premium and Floating bench kits are catching up.

2×4 cedar for bench tops and bench framing.

Standard heater is the Sauna Craft CWM series with TPT3 mechanical control. Upgraded Sauna Craft and Tylo are available as optional upgrades.

Optional & Upgraded doors, skirting, backrests, floor boards & accessories.

LK Premium:

As LK Plus has the most popular upgrades and upgrades included in the package. 2×4 bench tops & framing. Includes upgraded Sauna Craft CW-XR heater & EL-13 electronic control.

Built-in designer backrest behind top bench. Cedar skirt in top bench riser. Sauna bucket & ladle, thermometer and light shade.

LK Floating bench:

As LK Plus except for the benches. With the floating bench style, you provide your own 2×6 SPF bench sub-structure (spruce, pine, fir). We provide 1×4 s4s cedar for bench tops. There are no legs or floor supports. The bottom bench extends fully under the top bench.

Floating bench is an increasingly popular style with those looking for a more modern, open appearance. It is especially popular with those selecting a full frameless glass front wall.

All tongue & groove (t&g) lining material is 11/16" thickness

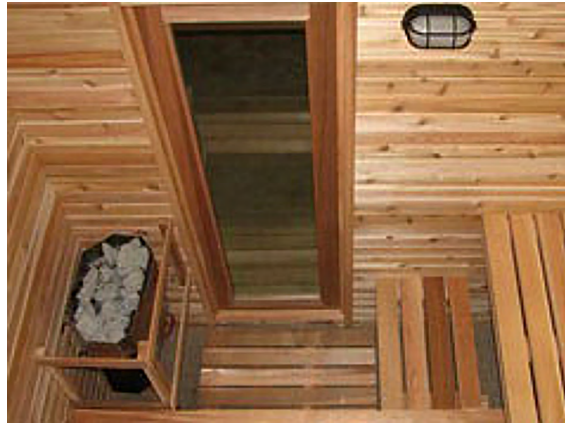

KNOTTY CEDAR

Knotty Lining with Clear Benches Plus or Premium or Floating

The Knotty Kit is a cost package using the ever-popular Western Red Cedar. The cost saving is achieved in a couple of different ways.

One way is the wall/ceiling lining itself.

Knotty cedar has all the great qualities of clear cedar, but is significantly less expensive. Some prefer the “rustic” look of knotty cedar. It is especially popular for outdoor and cottage saunas.

HEMLOCK

Floating Style

We are proud to offer clear kiln-dried Hemlock as a popular alternative to cedar. It has been selected for its uniform color and modern appeal.

Hemlock is a “soft” hardwood that holds up well in saunas and can be customized to meet your needs.

The “**Floating**” **benches** have a full depth bottom bench. Open below with no visible legs or bench supports. The Hemlock material provided hides the bench sub-structure.

In both cases, you provide the SPF (spruce pine, fir) to frame the benches. The 1×4 s4s Hemlock seating surface conceals the framing.

Standard heater is the Sauna Craft CWM series with TPT3 mechanical control. Upgraded Sauna Craft and Tylo are available as optional upgrades
