

Tylo Sauna Control Panels Introducing Elite and Pure

TyloHelo Pro Model Sauna

Heaters

For decades Tylo has been the obvious choice for saunas in hotels, clubs, swimming baths and sports facilities. Professionally managed environments like these prioritize reliability and low energy consumption, while frequent use subjects both designs and materials to punishing treatment.

LARGE SAUNA HEATER

Thanks to their tried-and-tested construction, intelligently conceived functions and materials of the very finest quality, our classic Deluxe heaters are more than a match for tough criteria like these. No wonder they're such a common sight in public saunas all over the world!

Pure

INTUITIVE DESIGN AND FEATURES

The elegant, compact design of Tylö's Pure control panel makes it the go-to choice for those who value functionality and advanced technology without compromising on aesthetics.

The ultra-thin black control lights up on touch and lets you set the lighting, temperature and sauna time by simply pressing a few buttons. Of course, choosing the default start time means you can step into a wonderfully hot sauna as soon as you get home.

The control panel is used with Sense Combi Pure or Sense Pure heaters.

Size: 3 1/8" x 5 1/8", depth 1/2".

Elite & WellAccess App™

EFFORTLESS BATHING

The new multi-disciplinary control panel Elite from Tylö is packed with advanced features, thanks to its internal processor and operating system. In addition to highly personalized settings, the Elite can be individually programmed according to your own schedule.

Add features such as auxiliary fans, fragrance pumps or sound systems – the Elite control panel handles it all with clear and concise precision. The crystalline 4.5-inch screen delivers real time status on every aspect of your sauna bath. Naturally it includes steam and temperature settings and WiFi app connectivity.

WELLACCESS™ - AN ALL-NEW CONTROL PANEL APP FOR SMARTPHONES AND COMPUTERS

In order to increase comfort, convenience and a better user experience, adapted to people's everyday living patterns, we recently launched WellAccess™, a new ingenious computer and smart phone app.

The user interface of the app, developed for both smart-phones and personal computers, perfectly emulates that of the sauna control panel. Through sensible engineering, the outcome is highly usable functionality, allowing sauna bathers to log on to the control panel smart phone app from their local WiFi network and remotely control most aspects of their sauna.

On both the control panel itself and via WellAccess™, it is possible to create and save several different user profiles and favorite settings and set different schedules. In commercial settings, it is possible to manage multiple units from one point of access, and set unique profiles for different locations.

Size: 3 1/8" x 5 1/8", depth 1/2".

OPTIONAL - RECESSED FRAME

TyloHelo Pro Model Sauna Heater

Freestanding Pro heaters have been the standard of the industry for more than 20 years. Designed for large, commercial-sized sauna rooms and for use with separate control panels.

Stainless steel construction. Contactor box required.

Optional External Switch for Tylo Pro Heaters

Overview:

This momentary, illuminated switch provides simple ON/OFF function to your Tylo Plus or Combi heater. This optional external switch will provide the sauna bather with the ability to turn the sauna ON or OFF only.

When the momentary switch is activated, the power icon will illuminate in blue and activate the sauna session that has been programmed into the main control. Pressing the switch when it is illuminated will remove power to the sauna heater and end the bathing session.
